Guide to Adding a Link to the Course Website

01 Adding a link to the website	2
02 Embedding a YouTube Video	5

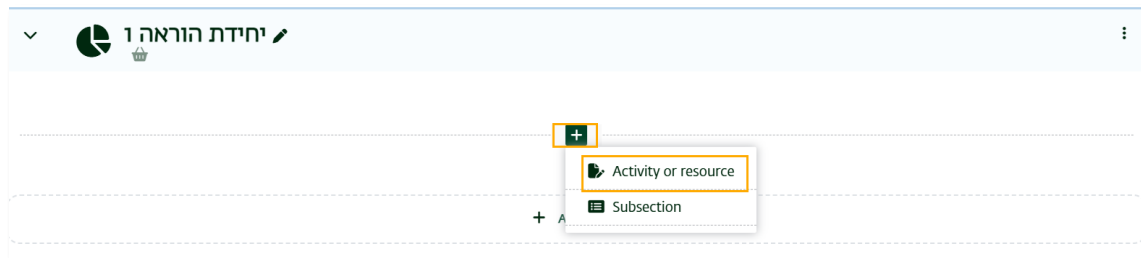

01 | Adding a link to the website

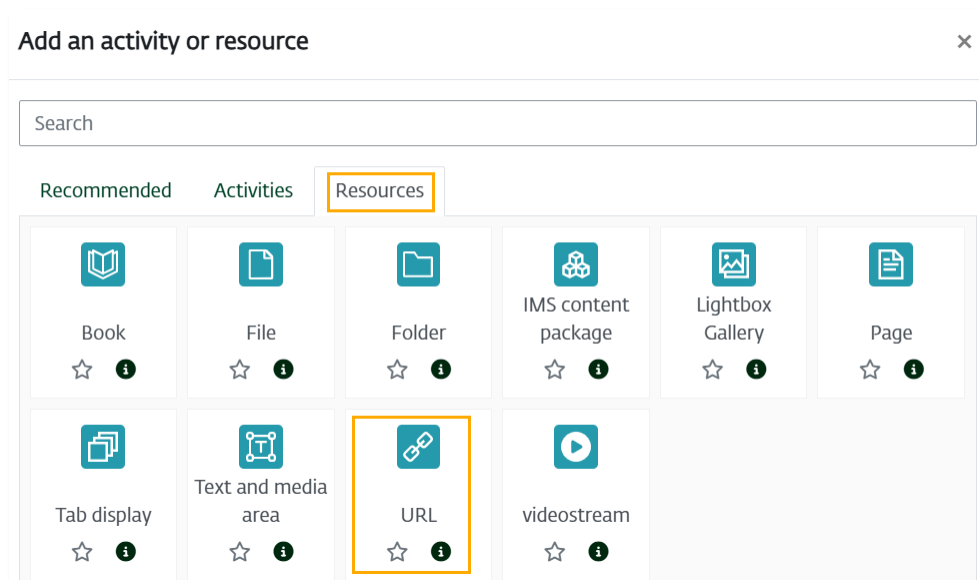

1. Click on the  button at the top left of the screen

2. Click the "Add content" button at the bottom of the instruction unit. And click on "Activity or resource".

3. Select the "Resources" tab in the window that opens. And select "URL".

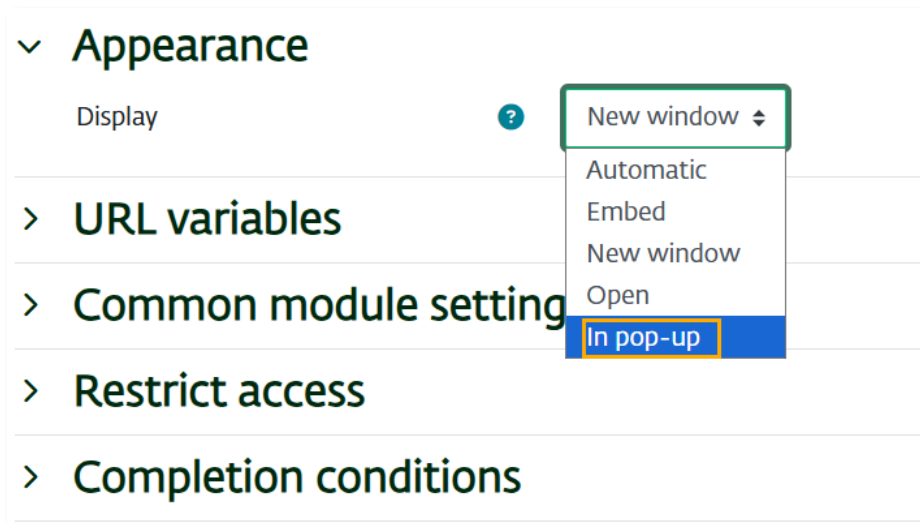

4. Enter the following details:

The screenshot shows the 'New URL' form in the course website interface. The form is titled 'הדגמה למרצים' (Demo for Lecturers) and has tabs for Course, Settings, Participants, Grades, Reports, and More. The 'New URL' section is active. It includes a 'General' tab with fields for 'Name', 'External URL', and 'Description'. The 'Name' and 'External URL' fields are highlighted with orange boxes. A 'Choose a link...' button is next to the 'External URL' field. Below the fields is a rich text editor with a toolbar and a text area. The bottom right corner shows '0 words' and 'Build with tinyMCE'.

- The name of the linked website by copying and pasting its URL.
- Add a description of the linked website

Note: You only need to "Choose a link" if you wish to search for a link to other websites. If you manually paste a website address from another site this step is not required.

5. The linked website can be opened by various methods under "Appearance":

- a) The “automatic” option displays it in the mode that best fits the user’s personal computer settings.
- b) Embedding opens it on a page within the course website, the user not having to leave the system.
- c) Open (not recommended): Opens it *on top of* the course website page, clicking the link thus taking the user out of the system into the linked site.
- d) Pop-up (recommended) opens it in a new window.

Save and return to course

Click the button at the bottom of the screen.

o2 | Embedding a YouTube Video

To embed a YouTube video, follow the previous steps up until choosing the internet address.

1. Under “External website address,” click the “Choose a link” button to search for a website link

[illegible]
